Volleyball ACT
By-Laws 2022

Foreword

Volleyball ACT Inc. (VACT) conducts its competitions and matches according to FIVB Rules except as detailed within this document.

The VACT Competition Rules use a numbering system that corresponds directly to the Official FIVB Rules and where the rules as numbered conflict, the VACT Rule applies.

The VACT By-Laws describe the procedures and conventions used to enforce the VACT Rules and provide direction and guidance where it is not provided by the VACT Rules. Both the VACT Rules and VACT By-Laws have been constructed based on previous rules and guidelines, as well as input from clubs and competition representatives.

Should a club or team wish to apply for an exemption or change to any of the rules and sanctions listed in this booklet then procedures are detailed within this by-law document.

Ultimately, the final decision to approve and/or deny requests shall be made by the VACT Chief Executive Officer (CEO).

When a team is declared in DEFAULT of a match, the following actions should be taken:

- Referee Supervisor and Competition Manager must be notified immediately
- Match result shall be recorded with the result of 0:3; 0-25, 0-25, 0-25
- VACT will issue a penalty and formally remind the team of their commitments to the competition

- deduction of one (1) competition match win, and
- deduction of three (3) competition points.

By-Law B.1.2

When a team is discovered to have used an unregistered player, the following action should be taken:

- VACT will notify the club of the registration issue
- If the club and/or individual cannot provide evidence of registration, then the team will be declared in DEFAULT, and the match result will be recorded as 3:0; 0-25, 0-25, 0-25.
- The player shall not be allowed to participate in any further matches until their registration is completed.

By-Law B.1.3

Clubs must field a Premier team – they cannot forfeit a Premier match and then field a Reserve team. The intent in CVL must be to field the Premier team at all times, this is part of the clubs commitment to the competition.

Example: If a club enters the Premier competition, a team must be fielded in this competition at all times. Where a Premier team is incomplete, it must be filled by Reserve grade players.

B.2 Duty Forfeits

By-Law B.2.1

If a team seeks to defer a match or defaults a match, they continue to have responsibility to complete any duty assignments for that round. As this is a club-based competition the expectation is that the duty assignment will be completed by the club.

Should the duty assignment not be fulfilled then the normal processes and penalties (see A.1.1.1 above) shall be applied.

B.3 Double Forfeits

By-Law B.3.1

If a situation arises where both teams are declared in DEFAULT of a match, the match result shall be null with no competition sets or points recorded. Both teams will be penalised according to B.1.1 above.

C. Participation in VACT Competitions

C.1 VACT Registration

By-Law C.1.1

All participants in the CVL competition are required to be registered and hold a current Volleyball Australia National ID number, the VACT yearly registration runs from 01st April though to 31st March each calendar year.

By-Law C.1.2

If an unregistered player appears during a match, then the process of B.1.2 above shall apply.

C.2 Participation in the VACT Capital Volleyball League

By-Law C.2.1

Only VACT affiliated clubs and associates may enter teams in the Capital Volleyball League, as per the VACT Affiliation Information document

C.3 Movement between VACT Leagues

By-Law C.3.1

Players may participate in the Capital Volleyball League, Open League and Recreational Leagues, with no restriction on player movement between the three leagues.

C.4 Movement within VACT Leagues

By-Law C.4.1

A club may have up to three (3) players appear on both the Premier and Reserve scoresheets during the same round. In extraordinary circumstances clubs may apply to the VACT Competition Manager one (1) week in advance for an exemption. The club request must be received no later than 12:00pm on the Monday before the scheduled match.

If a club uses the “extraordinary exemptions” more than two (2) times during a season they will be requested to meet with VACT to discuss if the team is viable to continue for the season.

If a club has multiple teams in Premier and Reserve divisions, they must determine and advise VACT at the commencement of the season which teams and players will be aligned (e.g. Premier A aligned with Reserve A).

Three players up/down will allow movement of three players only between divisions within these two teams. When a club has multiple teams in both divisions, a player who moves to a team is then aligned with that team for the duration of the season and must not participate with another team in the same Division level.

When a club has one team in one division and multiple teams in another division (ie 1 x Premier and 2/3 x Reserve or 2/3 x Premier and 1 x Reserve) a combined total of three players only may move between divisions.

C.5 Movement within Divisions

By-Law C.5.1

Where a player requests and receives a transfer from one club to another during the season:

- the player is declared to be a member of the new club upon approval of transfer the number of matches completed for that player will be reset to zero, only matches with the new club to be counted.
- Player transfer applications will not be accepted when there are outstanding financial obligations to the originating club.

By-Law C.5.2

A player that owes a debt to a VACT affiliated club will not be approved to participate in any VACT competition until payment of the outstanding debts are finalised with the affected club.

By-Law C.5.3

If a player competes for more than one team within a division of a League:

- they must complete a team transfer process prior to playing in the second team
- if they participate in a second team without a completed team transfer process, then that second team match will result in the team being declared in default.
- To clarify; once a player competes for a team in a division, they must either complete a team transfer process or only play for the team with which they start the season.

The team transfer process within clubs requires an email to the VACT Office, detailing the player or players involved, the original team and the gaining team. This type of transfer can only occur once for each player and only be undertaken within the first 3 playing weeks of the season.

C.6 Membership with a VACT Affiliated Club

By-Law C.6.1

A player may be a member of only one VACT Affiliated Club.

If a player wishes to transfer their membership from one club to another within the CVL competition, they must complete the Club Transfer process and gain approval from the Executive of both clubs involved. This process can be in the form of an email including the two clubs involved, the player and the VACT Office. The VACT office will have final say on any transfer application, once approved, the transfer is effective immediately.

VACT Rule 7.3.3

Chapter 4 Playing Actions

Rule 9 Playing the Ball

FIVB Rule 9

Each team must play within its own playing area and space (except FIVB Rule 10.1.2). The ball may, however, be retrieved from beyond its own free zone.

Note: VACT has a “Duty of Care” to all participants and due to the close proximity of the courts at the Lyneham Hockey Centre (LHC) Stadium, the free zone stops at the side line of the next court.

When a game is in progress on the next court, the ball **may not** be retrieved from beyond this free zone and will be signalled out when it crosses the vertical plane of the next court sideline.

Rule 12 Service

VACT 12.4.3 Execution of the Service

For Open and Recreational League divisions 1, 2 & 3:

- at the moment of service hit or take-off for a jump service, the server must not touch the court (the end line included) or the floor outside the service zone.

For Open Division 4, 5, Youth (Boys and Girls) Leagues:

- to assist players at this level of ability, the service rule is relaxed and players are able to serve between the end line and the attack line (within the back zone). This rule is to be monitored by the first referee and team coaches to ensure an unfair advantage is not obtained by either team.

For Open Youth (Boys and Girls) Leagues:

- If one server wins three consecutive points on serve, then the serving team rotates to bring another player into the serving position (this prevents one player from dominating the game with a strong serve).

Chapter 5

VACT Rule 15.4.3

For Open and Recreational League matches:

- no time-outs may be requested during the last five minutes of the match.

- A maximum of 12 substitutions permitted per set
- A player may enter the court up to three (3) times per set (Note: starting on the court counts as a first (1st) entry)
- Once a player has started in, or substituted into, a specific rotational position, that player may only play in that position for the duration of the set (excl. exceptional substitution).
- The Libero player assignment may change each set, following advice to the referees and scorer between sets
- Substitutions are allowed during the last five minutes of a time limit match.

For Open League Divisions 3, 4, Youth and Recreational Leagues an unlimited substitution rule shall be used:

- The 1st referee is to ensure this rule is not abused by teams to gain an advantage. Eg: Players subbing off when entering the back court and subbing back on immediately in the front court.

Rule 15.7 Exceptional Substitution

VACT Rule 15.7.1

A Libero player may be redesignated to a normal player in the situation where a team may be incomplete due to injury or illness only.
